

SmartBar

for MS Dynamics CRM

SmartBar allows a simple navigation between related CRM records. The Bar can be rearranged by every user to fit his personal CRM requirements. All standard and custom entities supported.

Navigation

- Simple back and forth navigation between related CRM records
- Compact overview, „buttons“ represent the related records
- The SmartBar persists when switching to related entities
- A number next to the „button“ shows the number of related records per CRM entity
- Open related entities in current or extra window

Additional Features

- Embed SmartBar on a preferred place on any CRM-form
- Delete, add and rearrange the „buttons“-order
- Custom Buttons: Fire javascript, navigate to entities or sitemap entries or scroll to a certain section on your CRM form
- Customizable SmartBar style and color
- Search and open SiteMap entries directly from the SmartBar
